In winter, heating, hot water and drying solutions become essential for keeping businesses operating safely, comfortably and without disruption.

Carrier Rental Systems is a specialist supplier of temperature control rental equipment in the UK and Ireland.

We provide a comprehensive range of cooling, heating, pumps and energy solutions across the UK and Ireland, 24/7, 365 days a year.

We operate throughout the UK and Ireland delivering a complete turnkey, rental solution from design, through installation to decommissioning.

Your heating hire support

In addition to your heating, hot water and drying solutions Carrier Rental Systems also provide the following support services:

Ancillary Equipment

Circulation pumps: 2 inch & 4 inch.
Heat exchangers: 50 kW to 2,000 kW.
Temporary site power:
- Silenced Diesel Generators: 15 Kva to 1,250 Kva.
- Electrical Distribution Boards.
- Electrical Connection Cable: 6 mm to 240 mm.

Buffer tanks: 1,000 ltr to 30,000 ltr capacity.
Circulation hose: 2 inch to 6 inch.
Flexible Air Delivery Ducting.
Pipework fittings and valves:
- Hose connections.
- Ancillary pipework and fittings.

Contingency Planning

Disaster avoidance programme:
This supports clients' risk management processes, all over the UK and Ireland, in preparing their cooling and heating systems to be ready to switch to a temporary or back-up service without major adjustment or costly re-engineering. This will minimise your system downtime.

These plans are always customised, but the solutions are tried and tested.

- Power Stations
- Textiles

Specialist Dehumidification Hire Solutions

REFRIGERANT DEHUMIDIFIERS

Carrier Rental Systems offer a range of refrigerant dehumidifiers that are light yet robust in design, making them the obvious choice for the construction industry and damage recovery companies.

They can be used to create the perfect conditions required for the application of plaster, paint, floor coverings and wallpaper by speeding up the drying time and also decrease the amount of damage caused by fire and water.

DESICCANT DEHUMIDIFIERS

One of the UK's largest range of rental desiccant dehumidifiers which can be configured to create almost any climate you might require.

Whether it is simple, straight forward drying of a small area that is needed, or you require exact temperature and humidity levels, our systems can be customised to fit your needs.
Our specialist desiccant dehumidifiers range from 100 m^3 to 8,000 m^3 an hour.

Our expertise and experience include supporting:

- Aggregates
- Commercial
- Construction / Civil Engineering
- Education
- Emergency Flood Response
- Energy
- Events
- Facilities Management
- Food & Drink
- Healthcare
- HVAC Contractors
- Ice Rinks
- Industrial
- Infrastructure
- IT / Data Centres
- Manufacturing
- Petrochemical
- TV & Film
- Utilities
